PLACEMENT

Exact placement is not possible. Making a seamless image that goes from front to back is not possible. We cannot guarantee exact graphic and text placement nor alignment on seams.

Custom logo

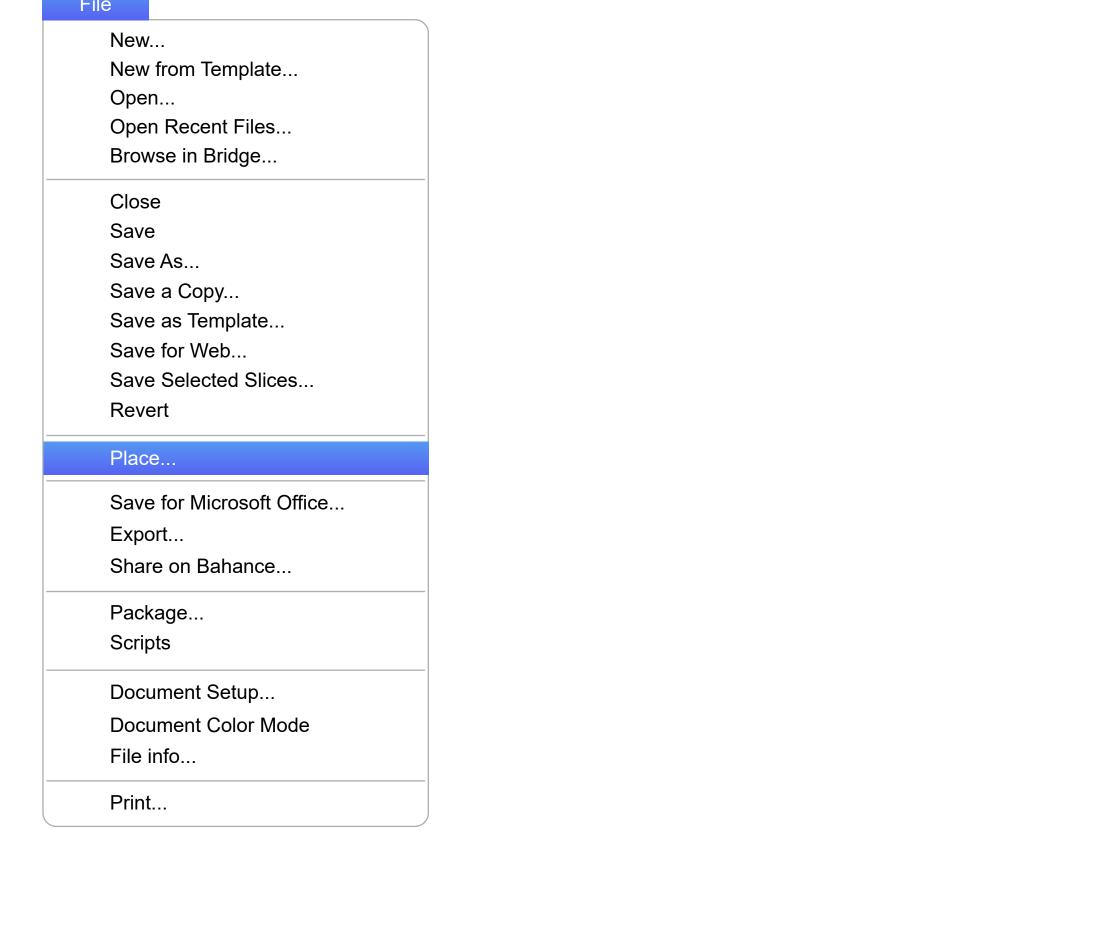

You need to create a separate print file for your custom yoga leggings logo and submit it along with your yoga shorts print files. The custom logo template is found in the downloadable yoga shorts print file folder. Front and Back waistband graphics are duplicated on the inside to avoid white spaces. When adding an inside logo, keep in mind that it's going to print on top of your artwork as a result of the duplicates.
